

To All of My Brothers and Sisters Gathered in the Mystical Body of Christ Jesus,

There is certainly no doubt or mystery concerning the economic and social upheaval causing an explosion of civil unrest and mortal anguish throughout the world! For far too long now, in broad daylight, up close, in your face, and in an exceedingly arrogant and brazen way, as investigated and reported by a superabundance of media and news agencies and networks, our government leaders from the local Town Halls to the White House, along with our court system and judges from the lowest courts to the Supreme Court have been engaging in unsoundly, detrimental and toxic practices! Practices that have been unethical, unlawful, unjust, unprincipled, unreasonable, unpardonable, unnatural, undermining, unsettling, and too often unthinkable, along with their inability and unwillingness to ACTUALLY embrace and uphold TRUTH and JUSTICE. All of this is overwhelmingly compounded by a deluge of malfeasance, misfeasance, nonfeasance, incompetence, malversation, conflicts of interest, cover-ups, perjury, bribery, dishonesty, disloyalty, deceit, denial, division, lies, hypocrisy, profound corruption, obscene greed and selfishness, and even traitorous and treasonable activity! From these investigations, one could easily add – outright and absolute criminally insane behavior! For obvious reasons, this includes corporations and financial institutions and in fact, most entities of both the public and private sectors at this juncture in history. This, of course, is not limited to the United States but seems to be a global epidemic. With particular regard to our leadership, most of our elections for candidates and representatives are unfortunately based on the choices between the LESSER of EVILS! How sad and pathetic that this is the best we can do!

Do the words: truth, ethics, justice, virtue, excellence, integrity, honesty, law, obligation, order, trust, prudence, freedom, rights, transparency, accountability, and responsibility – have any real meaning anymore? They seem to have become mere meaningless words and fodder for countless rhetorical explanations and speeches.

Where are the members and Chief of the Department of Law and Ethics amidst all that has been happening and erupting for so long now? Is there not one soul of personal integrity and good conscience to raise any red flags here? Does each member of this department seem to possess all four characteristics of being deaf, dumb, blind, and mute? Particularly here in the United States, this activity of aiding,

abetting, and NOT restraining and prohibiting such unmitigated and voracious corruption and greed is a contagion that seems to have metastasized and infected (in one form or another) every department of government – EPA, FDA, FCC, SEC, Education, Commerce and Banking, etc., etc., etc.. Departments that enact ridiculous policies that have been hastily or poorly planned or unvetted altogether. Departments that seriously and blatantly lack any cooperation and synergism to each other. In addition, why are so many of these departments, which are necessary for the health of our nation, so often underfunded and understaffed, rendering them ineffective? The good citizens of the United States (who collectively grant and allow you the right to govern them honestly and justly) in good faith and trust are paying your salaries to do what is right! AND? – Who is the people’s Ombudsman? What exactly has he or she been doing on behalf of all the disenfranchised people of the United States? Apparently not much or nothing at all! The American constituency has been misrepresented, duped, and lied to for far too long. They deserve and demand far, far better than the DUNGHILL that noxiously governs from our Capitol Hill, and over our great nation.

In the face of seemingly insurmountable injustice compounded by the profound absence of justice, I offer to you the deep insight and clear thinking of Saint Thomas Aquinas. He is one of the greatest minds the human race has ever known. A gifted man with a mind supremely unequalled and unrivaled in the understanding of the relationships of man to man, and man to GOD. From his greatest work, The Summa Theologica, he elaborates on the Virtue of Justice and its value saying: “The Virtue of Justice is the mortar that binds together the bricks of the house of mankind. It is justice which gives human life the stability which men need to work without fear or anxiety in the search for happiness. The value of the Virtue of Justice can be measured by the evil of injustice. The unjust man despises the rights and the persons of his fellowmen. He takes what is not his without regard for the rights of others. The money, the good name, the property, even the life of his neighbor he will destroy in pursuit of his own selfish ends. In this way, he becomes an evil force destroying the unity of society. Every unjust man is a threat to the peace and order of human social living. As the number of the unjust increases, the stability of social life dies. Men lose their incentive to work for themselves or for the common good. Suspicion and hatred replace trust and

love in the hearts of men. The law of force and cunning replaces the law of justice. Sins against justice are the cause of tension and unrest in human society. Sins against justice cause either anger or cynicism in the citizens. Anger can lead to sedition or revolt. Cynicism leads to the moral corruption or the civic apathy of the members of the community. In either case the moral temper of society declines and men forsake the order of charity for the disorder of selfishness.” St. Thomas Aquinas goes on to say that: “Injustice then destroys both the common good and the good of individual men. It destroys the happiness of society. Justice, on the other hand, means happiness in society. When men are just, then all can feel easy and secure. Human energies can be directed without anxiety to search for real happiness. Without the fear and anxiety born of injustice, men can direct their hearts and minds to the fulfillment of the law of charity. From one point of view, justice is indispensable for charity. For when injustice reigns in society, then men find it hard to love one another and easy to love only themselves. The happiness of society then demands both charity and justice – Charity as the motive of justice and justice as the strong bulwark of charity.”

Do these words of wisdom resonate in your heart, soul, mind, and being? As regards to all we are being blitzed and deluged by in our society and our world, who could deny the desperate reality of these words in our present day?! Our government leaders, court systems, and corporate institutions epitomize his words! We can clearly see how their poison has infected the totality of our society, for we are becoming poisoned as well. There can be no doubt that GOOD, SOUND, HONEST, and JUST LEADERSHIP is paramount for the health and survival of any nation!

Yes, WE MUST ASK, who is minding and watching the proverbial “candy store?” How could so many players, so often, and for so long, continue to drop the proverbial “ball?” It has become apparent that not only does the team stink, but also just about the whole damn league!!! Factual history continues to reveal systematic negligent behavior, accompanied by methodic and orchestrated policies to bring about and ensure absolute failure! As is clearly evidenced, unbridled and unethical Capitalism with no moral compass compounded by the senseless and imprudent lack of governmental regulatory safeguards has become a type of Destructionism. This predicament resounds and reverberates of the axiom that says – anything in excess eventually becomes its

opposite. In this particular case, obscene greed and wealth has led to poverty and bankruptcy – and this is global! Through further application of this particular truism and maxim, one may postulate that unbridled, prideful, idolatrous, virtueless, humanistic, self reliant, pretentious “progress” eventually leads to self annihilation! It is clear that in our present day, this very real and pervasive presence of evil, accompanied by its main henchmen of injustice, vice, sin, corruption, violence, and death will require far more than a mere cabinet or administration change in government. Yes, the hour is late and it is far beyond any human means and efforts alone to both combat and correct this malignant malady without divine intervention.

Incredibly and IRONICALLY, in our present age of a seemingly abundance of so-called “experts” and “geniuses,” why do we continue to suffer from such unprecedented difficulties, problems, pain, and failures that seem to have no end nor any real, concrete answers in sight? Who, if any, of these “experts” and “geniuses” have demonstrated and shown any EXPERTISE in knowledge and mastery over their own personal vices, sins, morality, and ethics? Through private revelation, our Lord Jesus intimated to the Servant of God, Luisa Piccarreta, The Little Daughter of the Divine Will, that: “I want to make everyone understand that ONLY VIRTUE makes man master of himself. I also teach superiors and leaders that ONLY VIRTUE UNITED TO RIGHT KNOWLEDGE MAKES ONE WORTHY AND CAPABLE OF GOVERNING AND RULING OTHERS – AND THAT AUTHORITY WITHOUT VIRTUE IS DANGEROUS AND DEVOID OF MERIT.”

In our times, there can be no doubt of how we may analyze any given thing, person, event, or series of events. We can obtain and arrive at results and answers with veritably unmatched precision. Leaving no room for doubt. The vast realm that constitutes the myriad of forensic sciences, their approaches, and the tools employed is overwhelming. In a sense it can be said that forensics reveal ULTIMATES, TRUTHS, and the BOTTOM LINE. Now when you apply this wonderful realm of the forensic sciences to all of the fields of science and knowing, and join this to sound philosophy, while applying these methods and principles to reality and actual, factual, history itself, the conclusions found thereupon will be astoundingly clear! With regards to the dire and desperate state of affairs of our broken world, I offer and submit a final analysis

based on those types of obtainable conclusions. In fact, when you deal with ultimates, truth, factual history, and reality, the final analysis becomes clear and self evident. The cause of all chaos, violence, and death results from mankind's departure and divorce from, and rejection of the GOD of Revelation and HIS WAYS! The rejection of GOD, the Divine Intelligence, WHO is the Author of all life and creation. The rejection of GOD, WHO holds all things together, and WHO both contains and sustains everything! The rejection of the One and Only supreme GOD of LOVE and LIFE! Here, it is crucially important to EXCLAIM that our belief or disbelief in GOD in no way changes the undeniable, unavoidable, and incontestable reality of HIS indefeasible and immutable existence! Fortunately, we cannot negate or obliterate GOD simply because we arrogantly will or choose not to believe in HIM. This particularly major reality and truth is a profoundly deep consolation for all humanity, whether we know it or not. In light of humanity's divorce from and rejection of our GOD of LOVE, and of all that He has revealed and given to us as stewards, could anyone argue the utter and mind-boggling exponential increase in not only the TYPES, but also both the LEVELS and FREQUENCIES of acts of terror, discord, divorce, cynicism, crime, corruption, violence, death, etc., etc., in our broken and seemingly darkening world? Could anyone of sound mind honestly say that we are witnessing an increase and proliferation of love, harmony, justice, order, and peace???

For those who claim the answer to be relative, in our age of "relativism" [which by the way is but one of the MULTITUDE of "isms" we are oppressed and suffering from], I urgently invite you to seriously and honestly meditate upon the collective current events that continue to relentlessly unfold around the world: political, social, economic, ecological, environmental, sickness and disease, plagues, wars, terrorism, droughts, gang warfare, pestilence, disorders, dysfunctions, addictions, exploding prison populations resulting from incredibly unthinkable brutality, cruelty, and violent behavior, etc., etc.. Even the Atomic and Nuclear Science communities who use the infamous 'Atomic Clock' in gauging the violent unrest on the earth and the imminence of a nuclear holocaust are clearly seeing and reading the signs. They have set the hands of this foreboding indicator dangerously close to the final hour of 12:00 midnight, indicating the extreme proximity and frightening possibility of mankind's annihilation. Furthermore, in

our opposition to our GOD of LOVE, WHO is at once also the GOD of LIFE, we have usurped GOD, the Author of Life, by assuming the role of dictating and deciding not only when life begins, but also who receives the Right to Life. Imagine such unprecedented evil arrogance. With this arrogant self-deifying enthronement, we have simultaneously and very seriously breached our relationship to GOD as stewards of creation, and also breached our relationships to each other as person to person.

Let us be mindful that the fight for the preservation of anything for the common good and welfare of humanity and the earth and their fruitful continuation [whether it be environmental, ecological and ecosystemic, animal species, clean resources, or better health care, better education, etc., etc., etc.] – are at their core, fundamentally pro-life efforts! By the main determinant issue of LIFE itself, and THEREUPON the qualities of life associated, it becomes apparently clear through rational common sense and the Laws of Reason (and much more so, by the Eternal Laws of GOD), to conclude that in order to experience, enjoy, preserve, and defend any or all of the above pro-life activity along with their freedoms and inalienable rights, one must first BE ALIVE to do so. Therefore, the human Right to Life is the principle, paramount and foundational cause that both presupposes and supersedes all other rights. When we abolish and lay waste the foremost and fundamental; this keystone and cornerstone right and principle which all and every other right rests and are developed and built upon, then all subsequent and proceeding laws which are secondary and subordinate are subject to become relative in their usefulness to actually seek and determine justice and truth. It is worth noting that the vast majority of human beings embrace and concurrently agree with the masterful thinking and statement by Albert Einstein who said, “Life is sacred, all else is subordinate.”

The results of our history of inept government and unjust judges and court systems have led to innumerable and countless cases where criminals are protected, or not properly prosecuted, or are even set free (even with clear and undebatable convicting evidence), while victims and often law enforcement as well are left frustrated, angry, vulnerable, and defenseless! In the case of an innocent, defenseless, and vulnerable child in her mother’s womb, these little victims are murdered by dismemberment, poison, and other variations of chemicals and violence. Then... there

is the supreme abomination known a partial-birth abortion. I suggest to everyone to “Google” this topic via computer and/or research this by whatever means that are available to you and have your minds powerfully, thoroughly, and painfully BLOWN! Defenders and supporters of LIFE have been fighting an uphill battle to have the truth told about these abominations and to create the necessary public awareness about these horrors. This is because they are met with great opposition by the liberal controlled media and major publications. It has been common practice by the media to systematically deny and refuse ad space to pro-life customers. The media is well aware and admits that ads which quote abortionists describing their work would traumatize their viewers and readers. If this, they know, is the result of ads that contain only words, imagine an ad accompanied with images, photos, and depictions. Whoa! There would be such an incredible outcry!

Friends of GOD and of humanity, we have arrived at the historical immoral low of any and all time. We are at the ‘ground zero’ of the immoral disorder which is diametrically opposite of the benefits of any moral order. Historically speaking, unrestrained, irresponsible, and unbridled immoral behavior and practices have often been the harbinger and precursor of the annihilation and death of a culture or civilization! In our current culture of death, when a mother’s womb, which for us human beings should be the safest, most nurturing, and protective place for a baby, becomes a hostile death chamber through the most insidious and violent acts that a person may commit, then how can we really look at ourselves and each other and sincerely and honestly speak of hoping and working towards a better, brighter, and safer world? It’s contradictory! It’s false and illusory! It’s impossible! Worldwide abortion aka aborticide and infanticide is THE HOLOCAUST of holocausts! These diabolical procedures have now claimed more lives than all wars, plagues, genocides, natural catastrophes, acts of terror, and holocausts combined! And!... if we were to include the silent unknown abortions occurring in women who take oral contraceptive abortifacients (the Pill), our minds would stagger!

Those who advocate and defend the debauchery and abomination of abortion are both a malignant minority and a menacing demagogy that DO NOT honestly or accurately represent and reflect the good common people which constitute our great

nation. It is well known that the abortion camp's arguments are based solely on false presumption and pretense, accompanied by pseudoscientific misinformation and disinformation. This in turn is disseminated and defended by skilled artisans of our present age known as wordsmiths, semantic engineers, and change-agents engaging in the art of sophism and sophistry with their clever, yet false arguments. This in turn is supported by a corrupt, liberal, biased, and atheistic media which itself is gluttonous for and gloats on immorality, corruption, violence, and death. This in turn seems to go unrestrained and protected by our legislators and governments who are themselves divorced and devoid of any virtue and who continuously and openly display their inability and unworthiness to govern rightly! And finally, this in turn is defended by judges who voluntarily or by denial are clearly and completely deficient and/or defunct of any and all medical and biological jurisprudence, and seemingly even basic common sense! These anti-life, arrogant, audacious, pernicious purveyors of death, with their immature pertinacity continue to cling to their tired, old, baseless, flawed, erroneous, fabricated, false, and deceitful arguments. NONE of which can stand honestly, directly, and squarely in the face of OVERWHELMING, irrefutable, unmistakable, unavoidable, unerring, incontestable, unequivocal, definitive and clear FACTS and EVIDENCE. All of which are unanimously supported by history, science, and all the latest advances in biotechnology. In fact, all progress made in these realms along with their forensic analyses actually continues to affirm and confirm what we have always innately, intuitively, and logically known and understood from the beginning! That human life endowed with all its profundity, sublimity, complexity and dignity begins at CONCEPTION! Therefore, convictingly and condemningly so, the CULPABILITY of Criminal ABORTICIDAL, INFANTICIDAL MURDER EXPONENTIALLY INCREASES with time for those who perform, partake, support, advocate, abet, legislate, and defend this aberrant abhorrence of humanity. YES, in order to defend such a pernicious lie, they have to resort to the distortion and misuse of word meanings, they must use euphemisms to cloud and disguise the real horror, and attempt to propagandize more loudly, more broadly, and with greater frequency. Marketing 101. The techniques employed to foist this lie upon us bear an ominous similarity as those implemented by the infamous, murderous dictator – Adolph Hitler. We all know the outcome of that lie!

However, the lie of abortion and contraception is far worse with a far greater magnitude, and continues to have a calamitous effect upon every aspect of humanity.

Sadly, what most people do not know or are not aware of is that the secret is out, the facts are in! For many years now, this “judicial Pandora’s Box” has been blown wide open. Through historical and paramount testimony, we concretely know that the infamous 1973 Roe vs. Wade and Doe vs. Bolton Supreme Court decisions were based and predicated on all lies! We know this to be true from the admittance of the woman who was the central figure in the case. Her name is Norma McCorvey. Through a profound personal conversion, great repentance, and with deep regret she OPENLY speaks at numerous venues about the fabrication and contrivance of all the lies that became the foundational arguments for these cases. Along with her is Dr. Bernard Nathanson, who in the early 1970’s was one of the pioneering, outspoken supporters and performers of abortion. He, too, as a medical doctor had a profound conversion. [I think it is worthy to mention here that many of our current medical practitioners who have outwardly taken the Hippocratic Oath to help and preserve life have inwardly and in practice taken the HYPOCRITIC STANCE of destroying human life for profits.] Now, as a pro-life advocate, he openly admits at seminars and conferences, of grossly exaggerating and fabricating numbers and statistics, and greatly minimizing the health risks to women. This, he admits, was in order to create the illusion for the need of legalized abortion! The entire case was and still is a lie, yet the Supreme Court refuses to overturn their decision. In spite of all the science, testimony, and facts, and of all we know and have known for so long, the Supreme Court through supreme arrogance, pride, and injustice refuses to admit to their grave error of supreme imprudence and allows the holocaust of abortion to continue. Of those members of the Supreme Court who currently and pertinaciously uphold the anti-life, pro-death mentality and philosophy, one wonders what would happen if the Socratic Method of argumentation was employed upon them? For obvious reasons, it would reveal we have Supreme Fools in a Kangaroo Court who are intellectually and morally bankrupt! Compounding this moral dilemma, there exists the ominous organization known as Planned Parenthood (another euphemism). They have been largely funded by taxpayer money to pay for abortions here in the United States and overseas to the tune of TENS of

BILLIONS of DOLLARS over the last 40 years. Citizens of the United States pay taxes but unwittingly do not realize that this money is drenched with innocent blood. It is bad enough that unsound judicial minds have legalized the crime of abortion. But for government to insidiously charge and tax – burden all citizenry, who want nothing to do with the death of its own innocent citizens is ludicrous and unconscionable! The population of any great nation pays taxes in good faith for the multitude of just causes and needs of its society. Why should any taxpaying citizen have to become unknowingly and indirectly complicit, liable, and responsible for the death of TENS of MILLIONS of BABIES. It is obscene and absurd! Shouldn't our tax money go towards any and all issues that advance, protect, and preserve Life, Liberty, and the Pursuit of Happiness? Public tax-funded abortion classifies as one of the highest forms (if not THE highest form) of criminally, misused, mal-appropriated monies to ever be inhumanely mis-spent.

I offer at this juncture a recent case of insanely warped interpretation of our Constitution(s) and the protections provided. It is but one example of a dizzying and bewildering number of like scenario of injustice and stupidity that continuously invade and assault the collective consciousness of our populace! As of February 2009, on FOX Network's 'HANNITY,' it has come to the American public's attention that there are at least 36 Islamic terrorist brigades covertly training on United States' soil to execute massive acts of terrorism and death within our borders. Yet our "Justice" system refuses to do anything based on the rights afforded to these people under current law! "Current law?" Did we not learn anything from 9-11? Could our lawmakers actually be that dumb and stupid? Again, we ask, "WHO is minding the candy store?" PARASITES! Now – juxtapose this to the abrasive mistreatment of the many people who have openly, peacefully, prayerfully, and legally demonstrated, for the protection of human life, outside of abortuaries and places that promote them. We have seen news reports of virtual SWAT-teams beating, dragging, and handcuffing these people. Often, throwing them into jail as criminals and menaces to society! Does anyone see something gravely wrong and unjust between these two scenarios? In our modernity, in some strange way, we mimic what took place 2000 years ago. We call for the release

of Barabbas (a murderer) while condemning innocent JESUS, the Author and Lord of Life! We cry: "Death to the innocent!"

The State of Emergency and exigency that our world finds itself in is directly linked to the billions of untimely and unjust deaths of the innocent in the womb. This crime in particular has caused us to lose the favor, blessing, and protection by GOD upon us and our nations from both evil and self destruction. Over the last four decades, Our Lord Jesus and Blessed Mother have revealed to many visionaries and mystics throughout the world, a great deal concerning this single issue of murdering innocent unborn babies, and what humanity is calling down upon itself, if it does not stop this abomination! HEAVEN ITSELF has been warning us! Make no mistake, this innocent blood crying out to GOD is calling down upon us Divine JUSTICE and FURY. We have stupendously failed as stewards of creation and life!

The death of innocent babies can never be the "solution" to unbridled, immoral and degenerate selfish promiscuous behavior. Our unwillingness to change for our own personal good and for the common good as well has resulted in countless social dilemmas, spiraling out of control. Like it or not, we all must take a stance, an active part at some point. In such decisive and critical times, it is unreasonable, unacceptable, and counterproductive to remain indifferent or complacent while languishing in some form of unheroic repose. It is apparent and paramount that in order for truth, rights, and freedoms to be justly and rightly maintained, we the people must become actively engaged to have them upheld and preserved. Archbishop Fulton J. Sheen states: "Everyone in life has at least one great moment to come to GOD. How each of us reacts depends on whether we have a background of good will or bad will. In some, there is a will to sin, with occasional good actions being the interruptions to an abiding evil intention. In others, there is a good will; and though a bad action may occasionally cut a tangent across it, the will, being good, is ready to make amends and make all sacrifices to follow the directives of conscience and the actual graces of moment."

In light of all that I have expressed and written thus far, I pray that there are still present on earth enough people with a properly formed and good conscience who possess a good will to see the truth, goodness, and justice of what one man is doing on behalf of not only all the unborn babies, but of all humanity! I invite and encourage all

those who have 'eyes to see' and 'ears to hear,' to seriously consider helping and supporting Mr. David T. Little in this fight to end tax-funded abortion! David, who after over 30 years of defending human life, is now undertaking the heroic challenge, as a conscientious objector of legally challenging this issue in the courts of law. He opposes, as we all should, any use of taxpayer money which funds the destruction of human life, especially in the womb! It is important to note that he is not opposed to paying taxes, for he knows the inherent needs of society. He only opposes the particular tax provisions that misappropriate money to fund abortion and other crimes and issues that are intrinsic to this abomination. He seeks, on our behalf, to have these provisions rescinded, terminated, and prohibited, thereby freeing all taxpayers from unknowingly and indirectly becoming complicit in the death of innocent human life.

He is calling to task and definition, the rights and protections granted to all citizens and people (born and pre-born). Especially those of North America, but of all nations as well, who enjoy the benefits of Constitutions, Declarations, Preambles, Charters, and Bills, all of which contain very clear and defined language which is crucial and necessary for challenging that which is clearly and undeniably unconstitutional, unlawful, unjust, illicit, immoral, and illegal!!! It should come as no surprise that the atheistic liberal media covering this case, seeks to portray David T. Little as a lazy, non-taxpaying, ne'er-do well. That portrayal could not be anything further from the truth! It is self evident that the media supports abortion and attempts to label those who defend life and truth, as people who are archaic and outmoded, uneducated and unintellectual. Media people often reveal through their immaturity an incredible lack of self introspection and wisdom. For these very labels, in truth, apply to themselves.

I have personally known David for over a year. I have met his family, some of the people he has worked with, and I have seen up close the voluminous, noble, and heroic effort and work he is putting into this case. Incredibly, he has been representing himself without legal counsel (because he cannot afford it). Intellectually speaking, I do not know any other person as erudite, articulate, and as brilliantly qualified as he is to undertake this extremely difficult challenge. Anyone who has a clue or knows anything about law, court proceedings, and the unending protocol, knows that it can demand immense and exhaustive effort, energy, time, money, and knowledge to argue a case.

Especially this case! It is important to bear in mind that he himself is not an attorney, and it is equally important to bear in mind whom he seeks to defend and protect. I interject here the words of wisdom of Pope John Paul II who boldly teaches: “Above all, the common outcry, which is justly made on behalf of human rights – for example, the right to health, to home, to work, to family, to culture – is false and illusory if the right to life, the most basic and fundamental right and the condition for all other personal rights, is not defended within maximum determination.” Powerful words coming from not only a man, but a true representative of the ONE TRUE LIVING GOD. An historical figure in history who had the humility, love, and charisma to attract and amass the largest and greatest audiences of unrivaled numbers (millions and millions and millions) to any given place and venue on earth, throughout all of history! Loved and respected by so many, especially the youth of our world!

May I add that in coming to know David better and more deeply, he is clearly a man of excellent character. A man of integrity, honesty, prudence, genuineness, truthfulness, trustworthiness, sincerity, morals, magnanimity, and good will! He is a man of great trust and faith in GOD! He is a loving husband and father. He is a man of prayer, and is very faithful to our LORD in Eucharistic Adoration, and also is a daily communicant. All things considered, I refer to him in my heart as ‘one of the last of the Mohicans.’ He has become a dear friend of mine, and I to him. I am grateful to have befriended David T. Little, who for over 30 years has been an admirable defender and supporter of human life. He successfully founded seven Crisis Pregnancy Centers, The Home for Unwed Mothers, and The Catholic Foundation for Human Life. He served as Vice President of Development for the Pope Paul VI Institute for the Study of Human Reproduction. He worked hand in hand with Dr. Thomas Hilgers who is the renowned leader of Napro-Technology. This technology concerns the latest advances made that support and promote Natural Family Planning. This reproductive technology, endorsed by the Church, has continuously proven to be far more successful, safer, and less costly than those so-called “reproductive technologies” that either violate the human person or the conjugal act of marriage and often church teaching. David also served for many years on the Right to Life Committee of New Brunswick, Canada. In modern history, two of his greatest supporters throughout Christendom were Pope John Paul II The

Great and Blessed Mother Theresa of Calcutta. They, above all, knew the relevance, importance, and critical nature of David's work.

As we can see, this case appeals to both the consciences and coffers of our lawmakers. It is absolutely clear that consciences can be shrouded thereby rendering them unsound and unfit whereby words of truth and right reason no longer matter. And, as regards to the coffers, we know that whenever money is concerned, it causes a greater and more direct affect. Prideful and imprudent leaders resent anyone who would call them out on criminal, wasteful, unlawful, unjust, unethical, unconstitutional, and ridiculously illogical and illegal spending. Their personal arrogance and pride simultaneously blinds them and wants to take precedence over justice and overwhelming truth. David, in our stead, is willing to fight this to the end. He is in great need of your prayers, help, and support! Stand up and be counted amongst the lambs of GOD as defenders of the innocent. Please, pray and fast for a victorious outcome of this unprecedented court battle! If your financial means allow you to help, please give alms generously for this cause, for Our LORD's generosity in return shall never be outdone. I personally have been financially helping and supporting David since I came to the understanding of the TRUTH, weight, and magnitude of this historical case. The impact of a victory would be wonderful for humanity within the whole economy of salvation history!

If your heart, mind, and conscience are calling and compelling you to become supportive in any way, please follow those inspirations. Seize the grace of the moment! No doubt, there are a multitude of causes to stand up for in this world. However, I hope to have sincerely demonstrated that this is the core issue, and that which all other issues are born from. Think about it, how can our society ever hope to adequately care for, provide, help, and protect born citizens (young, middle-aged, or elderly), when we have failed so miserably to help those who are the weakest, most defenseless, most vulnerable, and in the greatest need of care and protection in the womb! Experience is clearly showing that in a society and culture where 'anything goes'....everything will in fact... go! The very fabric of society is unraveling at a daunting and break-neck speed! The social framework of the family, values, virtues, courtesy, morals, justice, order, peace, charity, etc., etc., all are going away! Quickly!

Prolonged incompetent, unwilling, and corrupt leadership engaging in incessant and uninterrupted violations of public trust while enacting unconstitutional and unjust laws have led us to decline to a post-modern, post-Christian society which seems to be becoming more barbaric than civilized. Our hearts are heavy and deeply troubled when we think about the future (even near future) of our children and grandchildren. They are counting on us and trusting and relying on us for guidance. What shall we tell them of their inheritance of such staggering and seemingly irreversible problems of humanity and of our world? What shall we tell them of the ways in which we sincerely tried to make for a better world? In what ways shall we tell them of how we stood up against, what Pope John Paul II called, "Our Culture of Death."

We all want a better world, but it needs and pleads for our help, efforts, and support. We can help in a wonderful and relatively easy way. We have someone who is going to bat for us. He is doing the work, but he needs our help to adequately and successfully address this core issue that is the epicenter of so much widespread suffering. By helping David, you help humanity because he is representing us all! With heartfelt pleas, I encourage all to please pray fervently, fast as regularly as you can, and give alms as generously as your means allow towards this noble and needed challenge.

During this momentous time of history, in these concluding hours of this period of mercy granted to mankind by GOD, how can we not come to David's aid, and to the aid and rescue of our society's most precious resource – our children! To forsake our greatest resource, and source of joy, meaning, and tender love on earth would be a supreme crime. May our hearts never become so insensitive, cold, stony, and inhumane, but instead grow in love, faith, and generosity!

May our Holy Triune GOD bless us all through the Immaculate Heart of Mary, and through the intercession of St. Joseph, the Holy Innocents, and the entire Church Triumphant! FIAT!

In Christ's Loving Embrace,

Matthew Thomas  
NEW YORK
